NASCENT Group has speciality in Fire alarm control panel, Smoke detector testing kit and Telescopic access poles for conventional and addressable FIRE ALARM SYSTEMS.

We carry large inventory at our 'Mumbai & Singapore' facilities for marine fire detection system & spares sourced from Global majors like Tyco, Autronica, Consilium- Salwico, Apollo, Nohimi, Oki, Solo, & Testifire manufactured in their plants based in countries like United Kingdom, United States of America, Japan, and EU countries.

Today many Marine Vessel's Fire alarm systems and their spares have crossed their 15-20 years of usage which are obsolete and needs replacements but these spares are difficult to source. We are pleased to support your business continuity and provide you with these critical spares from our well stocked inventory which would help you to avoid regulatory detention and massive replacement cost incurred on installation of new Fire alarm systems.

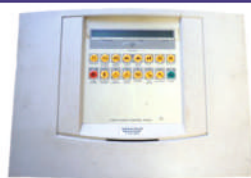

- Fire Control panels
- Conventional Type
- Addressable Type

- Smoke detectors
- Heat Detectors
- Flame detectors

- Detector Tester
- Detector testing kit
- Telescopic Access Poles
