What We Value - We "CARE"

Operating model of our company is based on "CARE" which stands for:

C: Customer Focus

A: Accountability

R: Reliable Partner

E: Efficient Expertise

We strive to achieve complete customer satisfaction by providing prompt, reliable and efficient services to customers.

We aim to remain thoroughly proficient and highly motivated in order to achieve the objective of the organization.

Marine Survey & Certification Services

CSS has been empanelled as Safety Inspectors/Surveyors for many flag administrations, and nominated business development consultants for various class societies.

By virtue of these positions, CSS is authorized to carry out statutory surveys and safety inspections as well as various other marine related services on behalf of its principals under various countries including, Panama and St. Kitts & Nevis. By virtue of our association with classification societies, we can arrange for Plan approval and statutory certification under various Conventions and Codes under IMO (SOLAS, MARPOL, AFS, ILLC, ITC, ISM, ISPS, IMDG etc.) and ILO (MLC, Crew Accommodation etc.).

Consultancy Services

CSS delivers the highest quality shore/afloat ISM/Quality consultancy available. Our Consulting Team consists of IRCA Auditors who are hand-picked to ensure that the dynamic synergy generated within the group is always injected in the customer product. CSS is constantly exploring new opportunities to expand our influence, seeking out new customer prospects through which we can expose our talents and skills within this field. CSS is capable of providing professional consultancy services to Ship Management Teams.
