

VANSON
ENGINEERING PVT. LTD.

DELIVERING MARINE ENGINEERING EXCELLENCE FOR OVER 4 DECADES

**RELIABILITY
YOU CAN SAIL ON**

An aerial, top-down view of a ship's deck, showing various equipment, railings, and structural elements. The ship is moving through dark blue water, leaving a white wake. The deck is light-colored, possibly white or light grey, and features several large, dark, rectangular structures, likely part of the ship's machinery or cargo handling system. The overall scene is captured in a high-contrast, slightly desaturated style, emphasizing the industrial nature of the vessel.

ABOUT US

Founded in 1979 by visionary Mr. Chandru Soneji, Vanson Engineering Pvt. Ltd. has grown into one of India's most dependable marine engineering system & service providers. Headquartered in Vasai, near Mumbai, Vanson delivers technical solutions and after-sales support to India's maritime and industrial sectors with a commitment to precision, performance, and partnership.

Carrying forward this legacy, **Mr. Navin Soneji, the second-generation leader**, has infused the organisation with a forward-thinking approach, expanding its horizons across new technologies, advanced solutions, and global collaborations. Under his leadership, Vanson has strengthened its position as a trusted partner for modern marine engineering requirements, blending tradition with innovation to meet the evolving needs of the industry.

Our strength lies in providing **end-to-end engineering solutions**, from project inception and equipment supply to commissioning and long-term service support. Backed by strategic partnerships with **world-leading OEMs**, Vanson ensures global standards, local execution, and seamless continuity across every client engagement.

OUR VISION

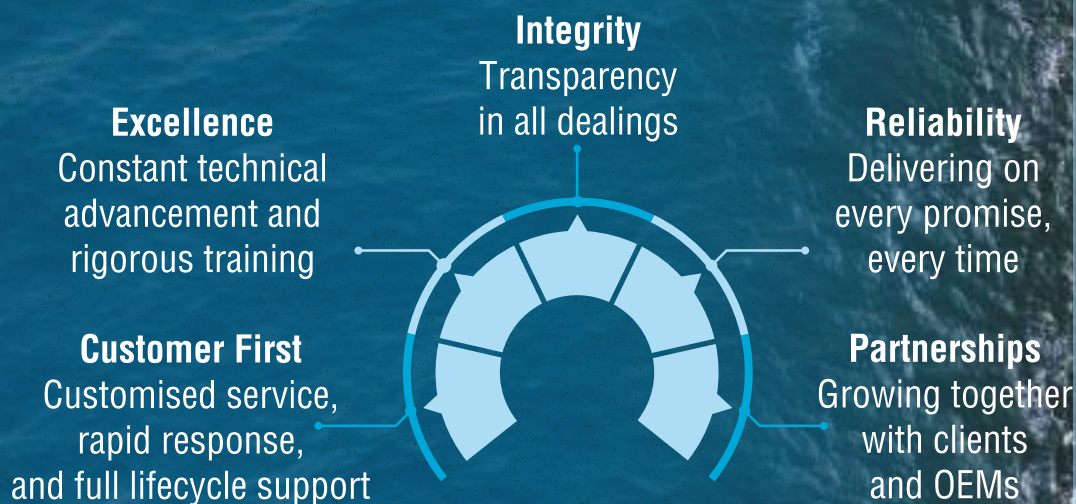

To be India's most trusted and forward-thinking marine engineering company — synonymous with quality, integrity, and reliability.

OUR MISSION

To deliver technically sound, cost-effective, and time-bound engineering solutions that support our clients' critical operations.

WHY VANSON?

With over 45 years of engineering excellence, Vanson stands as a trusted partner for the Indian marine industry. Our strength lies not only in our exclusive OEM partnerships and proven naval and commercial references, but also in the values that drive every project we undertake:

Backed by a pan-India technical presence, trained & certified service engineers, and expertise in emergency response, AMC, and retrofits, Vanson ensures custom engineering with quick turnaround while staying true to its core values.

OUR CLIENTELE

Over the decades, Vanson Engineering Pvt. Ltd. has earned the trust of India's leading maritime and defence organisations. From shipbuilding giants to strategic defence forces, our clientele reflects our capability to meet the most demanding marine engineering requirements with excellence.
