*Your partner in powering possibilities*

A division of Yeoman Marine Private Limited (ISO 9001:2015), Navi Mumbai

## ABOUT YEOMAN POWER

Yeoman Marine has made a formidable reputation in Indian Market in diverse areas viz ship building, Ship Repair and OEM product support since 1999. **Yeoman Power**, a wholly owned special business division of Yeoman Marine Private Limited, Navi Mumbai, was established in January 2024 to focus on equipment sales, providing propulsion and powering solutions to customers for sustainable shipping and environmentally compliant solutions for the industry.

### Strategic Partnerships

Yeoman Power formed a strategic agreement with Sigma Power Controls Pvt. Ltd, Pune, for application engineering, component sourcing, Genset testing and distribution of Sigma Product line

We also partnered with the global engineering leader FEV for product testing. FEV's world-class testing infrastructure in Pune ensures quality validation wherever required.

### Market Impact

Since its inception, Yeoman Power has challenged the status quo and offered differential service to customer with tailor made propulsion and powering solutions.

The equipments are backed by the trusted and reliable service network of Yeoman Marine. Within one year of its inception Yeoman Power has added esteemed clientele viz Greatship (India) Limited, Bridgeview Ships and Ports Pvt. Ltd., AM/NS India Pvt. Ltd., L&T Precision Technologies and also secured export order from SHM Malaysia.

### Our Promise

Yeoman Power is committed to delivering innovative, customized, and high-performance propulsion and power solutions, setting new standards in the marine equipment industry.

## MTU DIESEL ENGINES

Rolls Royce Power Systems authorised Yeoman Marine to be their service partner for MTU and Detroit Diesel range of engines, control systems and gensets in India in Jan 2017. Yeoman Power provides Re-Powering solutions from MTU to its customers and aspires to be a system integrator for MTU Product Line.

## ALAMARIN-JET

In January 2020 Yeoman Marine entered partnership with Alamarin-Jet Oy of Finland and is responsible for Sales & After Sales support support for their product line including training in India and South Asia. Yeoman Marine has added customers like Garden Reach Shipbuilders and Indian Navy for this product and is providing efficient product support for this equipment for which there is an installed base of more than 76 equipment in India. Yeoman Power offers Water-Jets (upto 1.5 MW input power) and the Sigma Control System.

## BUKH DIESEL ENGINES

In May 2022, YMPL entered into a partnership agreement with Bukh A/S of Denmark making a strategic entry into SOLAS business segment. Yeoman Marine represents Bukh for sales and after sales support including training in India and South Asia. There is an installed base of more than 107 equipment in India. To strengthen product support in the region Yeoman Marine entered into an agreement with Powerbreeze corporation appointing the latter as its dealer in Bangladesh in 2024 and Jet-Tech as its dealer in Maldives in 2025.

## HYDROPATH

In April 2024 Yeoman Marine entered into an agreement to market the Hydropath product line (patented technology) to marine and Oil&Gas customers in India. The product which provides environment friendly and efficient solution to limescale problems on heat exchangers has got its first customer as premier shipping company Greatship (India) Limited. The product is in synergy with Yeoman Power Vision of sustainable shipping.

## DEUTZ

In 2025 Yeoman Marine signed an agreement with DEUTZ Asia-Pacific (Pte) Ltd. of Singapore. Yeoman Power offers Daimler engines for off-highway applications for customers in India. These engines have a power range upto 600hp.

## COOPER DIESEL ENGINES

In May 2024 Yeoman Marine entered into an agreement with COOPER Corporation to represent their products in Marine, Oil& Gas and Land Defence business segments in India. COOPER produces world class diesel engines and gensets upto 600 HP. The engines are designed by Ricardo (UK) and IRS type approved. The engines are 100% manufactured in India and the IP rights are owned by COOPER Corporation. Yeoman Power offers COOPER Product-line for Marine, Oil & Gas and Land Defence.

## PROFISEAL GmbH

In August 2024 Yeoman Marine entered into an agreement to represent Profiseal GmbH of Germany for representing their product line of marine bulkhead seals, sterntube seals and rubber bearings. The patented fire proof bulkhead seal is a unique product of the company. Doctor Tobias Muller the Managing Director of Profiseal is very bullish about the India Market in the immediate future as ship building gains momentum and gets government policy support. In 2025 L&T Precision Technologies became the first customer for Yeoman Power for this patented technology.

## FRYDENBO

In March 2025, Yeoman Marine entered into Agreement with Frydenbo Forward AS of Norway as sales and service partner in South Asia. Yeoman Power offers SOLAS Engines of SABB and SABB LISTER Range which is available upto 39 HP.

## SIGMA CONTROL SYSTEM

Alamarin-Jet Sigma Control System is an electro-hydraulic integrated drive-by-wire control system.

It supports installations from single to quadruple waterjets. The system is based on modular architecture and the level of features depends of the modules integrated based on the user requirements.

In addition to the standard configuration of Sigma Control System, AJ Intelligent Dynamics is also available as an add-on feature.
