

Responsibility. In Business.

Compliance ensured!

Recycling Planning and Supervision for Owners

The growing demand on environmental, social and corporate governance (ESG) criteria, knowledge and experience is required for assuring accountability for industry action. This is not only being asked for by consumers but also increasingly by cargo owners, charterers, banks and investors. We provide complete services to Owners for the recycling of marine assets in a responsible, safe and environmentally sound manner.

Services are customized for achieving fully compliant recycling of maritime assets and include -but not limited to- development of IHMs, strategic guidance, development of compliance concept, identification of best suitable Ship Recycling Facility, transparent Due Diligence Inspections, planning of the Ship Recycling process, last voyage guidance, and finally supervision of the entire recycling operation with detailed reporting.

GSR Services has a vast experience in all ship recycling related issues, from cradle to grave. More than 50 HKC implementation projects for ship recyclers have successfully been finalized by GSR and high-profile owners been serviced. GSR knows about any requirement and compliance aspect for recycling, from owners and recyclers side. We have teamed up with a broker and cash buyer for providing a full service which perfectly combines compliance with economics.

Due Diligence Services for selection of the right recycling yard includes verification of all compliance aspects including preventive measures, social aspects, infrastructure and much more. The assets to be recycled are to be considered as well. This combination is the corner stone for ensuring environmentally sound and safe recycling operations as it's not a "one fits all" solution.

Customized Services ensuring responsible outcomes:

- Strategic guidance
- Development of compliance concept
- Development of IHMs
- RFQs & evaluations
- Planning of recycling process
- Due diligence inspections
- Advise on financial and contractual aspects
