Discover the unparalleled quality and performance of BEM generators. Our compact and optimized designs are engineered to deliver outstanding results. With Class H isolation systems, you can say goodbye to sinus-filter systems. Choose from a range of options including PMG and advanced impregnation systems, ensuring top-notch efficiency. Rest assured, our generators comply with industry standards and meet the rigorous requirements of marine classification companies. Whether it's power plants, marine applications, standby power, or UPS systems, BEM serves a wide range of industries.

At BEM, we stands for tailored, reliable generators.

L Series	LOW VOLTAGE MACHINES		
L07	400-690 V	650 - 2,750	kVA
L08	400-690 V	500 - 3,500	kVA
L09	400-690 V	1,200 - 5,000	kVA
L10	400-690 V	1,800 - 6,000	kVA
L11	400-690 V	2,500 - 8,000	kVA
L12	690 V	5,900 - 9,000	kVA

H Series	HIGH VOLTAGE MACHINES		
H20	3,300-13,800 V	700 - 2,700	kVA
H30	3,300-15,000 V	700 - 4,000	kVA
H40	3,300-15,000 V	1,200 - 7,000	kVA
H50	3,300-15,000 V	2,000 - 8,500	kVA
H60	3,300-15,000 V	3,000 - 11,000	kVA
H70	3,300-15,000 V	5,000 - 22,000	kVA
H80	3,300-15,000 V	9,000 - 20,000	kVA
