Preface

Cart2Port Services Pvt. Ltd. was incorporated firstly with the fundamental objective of providing a unique 'One Stop Digital Solution' for procurement of Ship Stores & Spares to Buyers such as Ship Owners (Shipping Companies), Shipyard Owners & Port Operators; secondly to become aggregator of various categories of marine requirements by resourcing from root level sellers and manufacturers with a clear aim of ensuring product quality, appropriate pricing, eco-friendly packaging and timely delivery to the ships, shipyards and ports.

To achieve these objectives, B2B portal **www.shipstorespares.com** with market place experience was launched. Portal presents wide range of Ship Stores & Spares under one roof. This Catalogue depicts popular categories of products sought by our clients and frequently supplied by us. The catalogue in no way limits us to provide any other range of products required by our esteemed clients.

We are thankful to all our clients, vendors and our team for invaluable support. Products can be queried simply by writing an email to **info@shipstorespares.com**.

The image is a composite background for a document. It features a large red surface, likely the hull of a ship, being painted. In the upper right, two workers in blue protective suits and orange helmets stand on a metal platform, using spray guns. In the lower left, a worker in a white protective suit and yellow helmet is also painting. In the lower right, there is a close-up of a complex, multi-chambered industrial painting machine with white and grey components.
